MEDIA RELEASE

CALYPTECH'S DESIGN CENTRE RELOCATED TO HEIDELBERG

MELBOURNE, Victoria. – Calyptech, a leading Australian designer of innovative technological solutions, has relocated their Design Centre to Heidelberg, Melbourne.

“The Heidelberg facility is equipped with a World Class Test Laboratory, offering advanced test capability for data rates greater than 10Gbps” stated Calyptech’s Chief Technology Officer, Dr. Shane Tonissen. “This allows Calyptech engineers to provide a unique capability in developing advanced turnkey solutions for our clients”.

“The relocation offers both state-of-the-art facilities and accommodates for the expected growth of the Calyptech team” added Gus Paolone, Calyptech’s Vice President of Embedded Systems Design. “Calyptech grew substantially in 2002 and it is anticipated that this trend will continue in 2003 as our global client base further extends to include customers in the UK and North America”

The Heidelberg location is centrally located in the Heidelberg business district and offers easy access to Melbourne’s CBD, as well as the Melbourne Airport.

About Calyptech

Calyptech (www.calyptech.com) is a leading provider of innovative technological solutions.

Offering both customised products and design services, Calyptech have a proven track record in addressing difficult technical challenges in a range of telecommunications industry segments globally, including semiconductor, networking and data security.

Focused on customer success, Calyptech work in close partnership with their diverse client base, applying world class expertise in Radio Frequency, Analog, Digital Signal Processing, and high speed digital systems design, in order to deliver the most optimal solutions, ensuring reduced risk and faster time-to-market for the client.
